We received the following questions regarding the bid listed above:

Question #1: Have any addendums been released for this bid beyond the first?

Answer #1: Addendum 1 was issued on Friday, October 30, 2015. This is Addendum 2. No further questions will be accepted or answered, as the due date is now less than seven (7) days.

Question #2: Will you accept up to 5% bio diesel in your diesel fuel?

Answer #2: The additive (#1 diesel) shall only be required as cold weather dictates, not year round.

Per page 8 in bid specifications:

ULTRA LOW SULFUR DIESEL FUEL SPECIFICATIONS:

ULS Diesel fuel must be a high quality Diesel fuel and will be seasonally and geographically blended for low temperature and performance, as to insure a low cloud point and pour point.

Item #9: Winter blend shall be with ULSD #1 per ASTM specifications.

Question #3: Please confirm how long after the bid opening are we required to hold our firm pricing before the recommendation?

Answer #3: Bid is due on Tuesday, November 10, 2015, to be awarded on Thursday, November 19, 2015. Contract commences December 1, 2015 and includes any/all purchases made through November 30, 2016, for a twelve (12) month period.

Question #4: On a firm bid we would like to have a name and contact number for someone that can inform us of the low bidder as soon as possible.

Answer #4: Award information will be available after final vote on Thursday, November 19, 2015, after 2:00 PM, via email request to rweiss@willcountyillinois.com.

Question #5: How many gallons did you lock in last year for diesel and for which months did you lock in?

Answer #5: We do not lock in gallons for this bid. This is a "Fixed Rate per Gallon" bid with an estimated number of gallons furnished (approximately 300,000 gallons of 87 Octane and 85,000 gallons of diesel), but not guaranteed. **Approximate usage** is 25,000 gallons of 87 octane and 7,500 gallons of diesel fuel per month, but not guaranteed, as this may fluctuate from month to month and from year to year.
