RFQ # 2016-56
FAIRMONT STORM SEWER
WILL COUNTY, ILLINOIS

APRIL 25, 2016

ADDENDUM 2

Amendment to RFQ:

The County seeks specific input from respondents relating to the firm's overall preliminary assessment under the existing point covered in the RFQ

Provide a preliminary assessment of the project; include what you consider to be the solutions to correct the existing problem including what your approach to the project will be.

The preliminary assessment should contain responses to the following line of questioning:

1. What is your assessment of combining elements from alternatives 1A, 1B and 2 relating to the 17 responses contained in the community survey, under Exhibit 5?
2. What is your assessment of including the use of green infrastructure (Alternative 3) in specific targeted areas focused on the location of existing standing water?
(i.e. is green infrastructure more cost effective and efficient as other storm water improvement measures?)
3. What is your assessment of implementing the Maintenance & Minor Improvements listed on pages 16-18, and including Figures 7 through 14 and Figures 16 through 19?
4. What is your assessment of building to meet the 10 year vs. 50 year flood event?

Due to the additional request from Will County, we are extending the due date to May 16, 2016.

Please use the amended attached label and affix to the outermost package of your response.

LATE RFQ'S CANNOT BE ACCEPTED!
