

INSPECTIONS TO BE COMPLETED ON INDIVIDUAL PERMITS

(815) 727-8634

ABOVE GROUND POOL

Final Building

AG EXEMPT POLE BUILDING

Post Hole

Rough Building (Electrical, Framing, Mechanical
if installing interior finish material)

Underground Plumbing (if applicable)

Underground Electric (if applicable)

Electrical Service

Interior Slab (if applicable)

Final Plumbing (if applicable)

Final Building

ADDITION

Footing / Piers (if applicable)

Sediment/Erosion Control (if applicable)

Foundation Before Pour

Backfill / Foundation (if applicable)

Underground Plumbing (if applicable)

Interior Slabs (if applicable)

Electrical Service (if applicable)

Masonry Fire Box (before 1st flue set)

Rough Building (Electrical, Framing, Mechanical)

Masonry, Flashing & Exterior Tie-down

Rough Plumbing (if applicable)

Rough E.I.F.S. or Masonry Stucco (if applicable)

Insulation (if applicable)

Final Building (Electrical, Framing, Mechanical)

Final Plumbing (if applicable)

Fire Resistive Construction (if applicable)

Final Grade & Sediment Erosion (if applicable)

ATTACHED GARAGE

Footing / Piers (if applicable)

Sediment/Erosion Control (if applicable)

Foundation Before Pour

Backfill / Foundation (if applicable)

Interior Slabs (if applicable)

Rough Building (Electrical, Framing)

Masonry, Flashing & Exterior Tie-down

Rough E.I.F.S. or Masonry Stucco (if applicable)

Insulation

Final Building (Electrical, Framing)

Fire Resistive Construction (if applicable)

Final Grade & Sediment/Erosion (if applicable)

CELLULAR TOWER

Footing / Caisson / Foundation Before Pour / Piers

Sediment/Erosion Control (if applicable)

Electrical Service

Final Building

Final Grade & Sediment/Erosion (if applicable)

COMMERCIAL

Footing / Piers (if applicable)

Sediment/Erosion Control (if applicable)

Foundation Before Pour

Backfill / Foundation (if applicable)

Underground Plumbing

Underground Electric

Interior Slabs (if applicable)

Electrical Service

Rough Building (Electrical, Framing, Mechanical)

Masonry, Flashing & Exterior Tie-down

Rough Plumbing

Rough E.I.F.S. or Masonry Stucco (if applicable)

Rough Mechanical - Grid

Insulation

Final Building (Electrical, Framing, Mechanical)

Final Plumbing

Fire Resistive Construction (if applicable)

Final Grade & Sediment Erosion (if applicable)

DECK

Piers

Rough (if underside will not be accessible)

Final Building

DEMOLITION - Final Building

DETACHED GARAGE

Footing / Foundation Before Pour / Piers

Sediment Erosion Control (if applicable)

Slabs / Electrical / (if applicable)

Final Building

Final Grade & Sediment Erosion (if applicable)

ELECTRICAL SERVICE

Electrical Service & Final Building

ELECTRICAL UPGRADE

Electrical Service & Final Building

INDUSTRIAL -

Footing / Piers
Sediment Erosion Control (if applicable)
Foundation Before Pour
Backfill / Foundation
Underground Plumbing
Underground Electric
Interior Slabs
Electrical Service
Rough Building (Electrical, Framing, Mechanical)
Masonry, Flashing & Exterior Tie-down
Rough Plumbing
Rough E.I.F.S. or Masonry Stucco
Rough Mechanical - Grid
Insulation
Final Building (Electrical, Framing, Mechanical)
Final Plumbing
Fire Resistive Construction (if applicable)
Final Grade & Sediment Erosion (if applicable)

IN GROUND POOL

Footing / Foundation *for: Pre-Pour or Framing*
Sediment Erosion Control (if applicable)
Underground Electric *for: Bonding or Grounding*
Underground Plumbing
Final Building
Final Plumbing
Final Grade & Sediment Erosion (if applicable)

LAWN SPRINKLER

Final Plumbing (RPZ Certification required)

MOBILE HOME (HUD APPROVED)

Electric Service
Underground Plumbing (Sewer & Water)
Tie Downs
Final Plumbing - Suspended Piping
Final Building - must have two Fire Extinguishers:
One at Kitchen Sink - Mounted
One located by the Furthest Closet - Mounted

POLE BUILDING

Footing / Piers (if applicable)
Sediment Erosion Control (if applicable)
Foundation Before Pour
Backfill / Foundation (if applicable)
Interior Slabs (if applicable)
Electrical Service (if applicable)
Final Building (Electrical, Framing, Mechanical)
Fire Resistive Construction (if applicable)
Final Grade & Sediment Erosion (if applicable)

REMODELING

Electrical Service (if applicable)
Interior Slabs (if applicable)
Rough Building (Electrical, Framing, Mechanical)
Masonry, Flashing & Exterior Tie-down
Rough Plumbing (if applicable)
Rough E.I.F.S. or Masonry Stucco (if applicable)
Insulation (if applicable)
Final Building (Electrical, Framing, Mechanical)
Final Plumbing (if applicable)
Fire Resistive Construction (if applicable)

RESIDENTIAL

Footing / Piers (if applicable)
Sediment Erosion Control (if applicable)
Foundation Before Pour
Backfill / Foundation (if applicable)
Electrical Service
Masonry Firebox (before 1st flue set)
Underground Electric (if applicable)
Underground Plumbing
Interior Slabs (if applicable)
Rough Building (Electrical, Framing, Mechanical)
Masonry, Flashing & Exterior Tie-down
Rough Plumbing
Rough E.I.F.S. or Masonry Stucco (if applicable)
Insulation
Final Building (Electrical, Framing, Mechanical)
Final Plumbing
Fire Resistive Construction (if applicable)
Final Grade & Sediment Erosion (if applicable)

ROOFING

Final Building

R.P.Z. BACKFLOW PREVENTION

Final Plumbing (needs valve certification)

SCREEN PORCH

Footing / Piers
Foundation Before Pour
Backfill / Foundation
Interior Slabs (if applicable)
Final Building

SHED

Interior Slab
Final Building

SIDING

Final Building

WINDOWS

Rough (if different size)
Final Building

A FINAL INSPECTION MUST BE CALLED IN ON ALL BUILDING PERMITS
