ILLINOIS FREEDOM OF INFORMATION ACT

Any and all submissions to the County of Will become the property of the County of Will and these and any late submissions will not be returned. Responses will be open to the public under the Illinois Freedom of Information Act (FOIA) (5 ILCS 140) and other applicable laws and rules, unless you request in your response that we treat certain information as exempt. We will not honor requests to exempt entire responses. You must show the specific grounds in FOIA or other law or rule that support exempt treatment. If you request exempt treatment, you must submit an additional copy of the response with exempt information deleted. This copy must tell the general nature of the material removed and shall retain as much of the response as possible. In the event the County of Will receives a request for a document submitted, the County of Will shall provide notice to the respondent, as soon as practicable. Regardless, the respondent will be responsible for any costs or damages associated with defending any request for exempt treatment. Furthermore, respondent warrants that County of Will's responses to requests for documents shall not violate the rights of any third party.

Please be advised that if your response is accepted by the County of Will and a contract between the respondent and County of Will results from subsequent negotiations, all related records maintained by, provided to, or required to be provided to the County of Will during the contract duration are subject to FOIA, even if they are solely in the possession of the respondent. In the event the County of Will receives a request for a document relating to the respondent, its provision of services, or the arranging for the provision of services, the County of Will shall provide notice to the respondent as soon as practicable; and, within the period available under FOIA, respondent may then identify those records, or portions thereof, that it in good faith believes to be exempt from production and the justification for such exemption. Regardless, respondent will be responsible for any costs or damages associated with defending the request for exempt treatment. Furthermore, respondent will warrant that County of Will's responses to requests for a document relating to the respondent, its provision of services, or the arranging for the provision of services, or the arranging for the provision of services, will not violate the rights of any third party.

Please be advised also that FOIA provides that any record in the possession of a party with whom the County of Will has contracted to perform a governmental function on behalf of the County of Will, and that directly relates to the governmental function and is not otherwise exempt under FOIA is considered a public record of the County of Will for purposes of FOIA.

5 ILCS 140/7(2). As such, upon request by the County of Will (or any of its officers, agents, employees or officials), the respondent shall provide to the County of Will at no cost and within the timeframes of FOIA, a copy of any "public record" as required by FOIA and in compliance with the provisions of FOIA. After request by the County of Will, the respondent may then identify those records, or portions thereof, that it in good faith believes to be exempt from production and the justification for such exemption. Regardless, the respondent will be responsible for any costs or damages associated with defending the request for exempt treatment and any fines or fees related to such treatment.

**REQUEST FOR QUALIFICATIONS (RFQ) FOR:
PROFESSIONAL CONSTRUCTION MANAGEMENT SERVICES AT RISK (CMr)
FOR THE WILL COUNTY SHERIFF'S FACILITY AT LARAWAY ROAD**

OVERVIEW:

The Will County Sheriff's facility on Laraway Road is remotely located outside the Joliet city limits. The 16± acre site is bordered by Laraway Road (north), the Will County Division of Transportation (east), Manhattan Road (west) and the Will County Forest Preserve (south). The main site access is from the north at Laraway Road with secondary access from the west at Manhattan Road. The original building was built in 1971 and an addition was completed in 1975. Although not well documented, additional projects were also completed over time resulting in the combined total area for the existing main building of approximately 11,000 gross square feet. There are large paved areas between the main building and departmental maintenance and storage facilities.

The overall physical condition of the main building is fair and currently functional. However, the building envelope, while generally well maintained, is in need of a new roof and requires tuck pointing. Although unable to meet current and future operational needs, the interior space is in fair condition, requiring building code compliance upgrades and replacement of many worn, outdated finishes. More detailed information on existing facility conditions is available in *Appendix A*.

The long term viability of the existing buildings is questionable relative to overall capacity due to both projected population growth and planned obsolescence. In consultation with the CMr during pre-construction, The Architect/Engineer (A/E) shall assess these existing conditions within the context of current/future programming requirements to determine the best options for consideration by the County of Will for either a new facility or renovations to existing buildings (or both) on the Laraway site. The total project budget shall not exceed \$15 million, inclusive of all design and construction costs.

This project requires a teaming arrangement between the CMr and A/E during the Pre-Construction Phase at which time, the CMr shall be responsible for schedule and budget adherence. The CMr may also be selected by the Will County Board (WCB) for continued involvement during the construction and post-construction phases of the project. This will be further articulated by the County of Will during contract negotiations that may occur as a result of responses to this RFQ.

Proposed Project Schedule

The proposed project schedule is outlined as follows:

Pre-Construction Phase

Program Completion	2 Months
Schematic Design	1 Month
Design Development	3 Months

Bid-Award Phase

Construction Documents	1 Month
Construction Procurement	2 Months

Construction Phase

Construction	10 Months
--------------	-----------

Post-Construction Phase

Project Close-out/Owner Occupancy	1 Month
Warranty Period	per Contract
Anticipated Completion Date	July 2017

The schedule includes time for expedited reviews by the WCSD, WCE and WCB, as required. It is anticipated that all pre-construction services provided by the CM will be completed within six (6) months from Notice-To-Proceed.

Pre-Construction Phase Services

Program Completion

Upon contract award, the CMr shall be responsible for developing and maintaining the detailed, pre-construction phase CPM schedule which, in total, has a scheduled duration of six (6) months. During program completion, the A/E will first update the Will County Sheriff's Department Facility Program entitled, "Laraway Site Study", dated April 1, 2013, as prepared by others and included herein as, *Appendix A*. CMr shall meet with the A/E to arrange working meetings with the Will County Sheriff (WCS), WCE and WCB and/or their designees to determine current space requirements / utilization needs; and, to receive input and clarifications necessary for finalizing the Facility Program. The finalized Facility Program shall become basis of the A/E's Schematic Design.

Schematic Design

The Schematic Design shall include (at a minimum): a proposed site plan, physical size and characteristics of the building(s), preliminary elevations and sections; plus, contemplated building systems and corresponding operational layouts of the facility. An itemized cost estimate and baseline schedule for completion of design development and construction phase activities shall be prepared by the CMr and included for presentation to elected Will County Officials by the CMr and A/E for approval prior to proceeding with design development.

Design Development

1. Reconcile Schematic Design Phase schedule and budget with details derived from Design Development Phase.
2. Attend meetings with the A/E, WCS, WCE and WCB, as required.
3. Research different construction materials for cost effectiveness and availability.
4. Consult with the A/E, WCS and WCE/B regarding site conditions, site use, site remediation and selection of building materials, systems and equipment.
5. Develop a provisional and final CPM schedule using industry standard software indicating methods and sequencing of procurement, permitting, construction and closeout. Include time requirements for sequences and durations, milestones date for receipt and approval of design documents, receipt of regulatory approvals and permits, preparation and processing of shop drawings and samples, delivery of materials or equipment requiring long-lead times, project procurement schedule, and construction completion. This include updates of project schedule for review and approval by the County of Will.
6. Provide and implement procedures for both quality control and schedule adherence.
7. Perform constructability reviews of the design documents, as required.
8. Provide detailed cost estimates for each major trade to identify perceived savings or overruns.
9. In conjunction with the A/E and WCE, develop value-engineering options, as required.

Bid / Award Phase

If selected by the WCB for construction and post-construction phase services, the CMr shall:

Construction Documents

1. At the 90% Design Development milestone, provide a final cost estimate for the project, itemized in current CSI format that includes the CMr's estimate for each Division. CMr shall utilize this as the **Guaranteed Maximum Price (GMP)** for the project and may include a contingency of 10% at this time.
2. In consultation with the County of Will, identify qualified, experienced local trade contractors for each major trade category as defined by the final cost estimate.
3. In conjunction with the A/E, subdivide the work into bid packages that encourage bids from qualified local and minority / women contractors, suppliers and vendors.
4. Provide a construction schedule (CPM) with precise timeline for release of bid packages.

Construction Procurement

1. Schedule and conduct pre-bid conferences in conjunction with the A/E.
2. Produce and distribute bid documents in conjunction with Will County's Director of Purchasing.
3. Plan, schedule and monitor bid activity, seeking clarifications on technical issues from the A/E, as required.
4. Upon receipt of bids for all major trade categories, reconcile total project cost with CMr's pre-established project budget and present to the County of Will.

Construction Phase

1. Maintain experienced, qualified, full-time, on-site, staff for construction management.
2. Establish and maintain industry standard trade coordination procedures.
3. Develop and maintain a detailed schedule (CPM) including delivery, approvals, inspection, testing, construction and occupancy.
4. Conduct weekly job site safety meetings.
5. Proactively ensure trade contractor compliance with contract documents, project schedule, safety protocols and quality control standards.

6. Maintain a user-friendly, efficient, system for review and approval of all submittals.
7. Maintain records and submit bi-weekly reports and formal monthly reports to A/E and WCE.
8. Develop and provide cost controls through monthly progress payment review and verifications according to the approved schedule and contract amounts.
9. Develop and maintain as-built drawings for the duration of the project.
10. Facilitate and coordinate FF&E installations on behalf of the WCS.
11. Coordinate post-completion activities, including the assembly of guarantees, manuals, closeout documents, training, regulatory approvals and final acceptance by WCE.
12. Coordinate and monitor resolution of remaining all punch-list items to the satisfaction of the WCE.
13. Coordinate building systems commissioning requirements.

Post Construction Phase
