## **2019-26 TIRE COLLECTION EVENT FOR THE COUNTY OF WILL**

### **ADDENDUM 1 April 4, 2019**

We received the following questions regarding the RFP listed above:

Question #1: 1. Do you want a price per ton for transportation and disposal (quantity of materials is unknown)?

Answer #1: If the bidder uses price per ton, please mention how many tires is equivalent to a ton in your bid proposal.

Question #2: If we do not know the quantity, I can not give a total cost as the document requests. Do you want me to base the total cost on the figures provided (5,000-20,000 tires)?

Answer #2: Yes, you can base it off of the 5,000 to 20,000 tires received. However, if by chance, it goes over 20,000, please make reference for cost over 20,000. Furthermore, please include oversized tires (farm tires) cost.

Question #3: If you get in 15,000-20,000 tires it will take more than 1 day to transport and dispose. Will that be a problem?

Answer #3: At this time, it is unknown where the event will take place. Although in the past the County has had this event on a Saturday it would be up to the site owner when the tires need to be removed. The County has the event on Saturday so the removal of tires can be done usually on Saturday and Sunday but as stated, it is up to the site owner.
