Re: Recommendation for Contract Award for the
Will County Animal Control Software RFP

After reviewing the submissions for the request for proposals for Shelter Software for the Will County Animal Control department, I recommend PetPoint. The reasons for this selection are as follows:

- Will County Animal Control is already using the 24PetWatch microchips which is a requirement for the Advantage Program with PetPoint and in turn will give us a lower annual fee.
- PetPoint is longer established providing animal shelters and more specifically animal controls software and thus are very familiar with our specific needs.
- PetPoint has more options and flexibility with use resulting in greater efficiency.
- PetPoint provided the most complete proposal which increases my confidence in the overall product.
- Input from the IT department is that PetPoint is the best option from an IT perspective as they provided a lot more detail when it comes to security and IT related questions. Additionally, they offered MFA and other security related infrastructure in their proposal.

Therefore, it is my recommendation to award this RFP to PetPoint for our Shelter Software.

Sincerely,

A handwritten signature in black ink, appearing to read "Anna Payton".

Anna Payton
Administrator
Will County Animal Control
