2024-66 RNG Security Camera Install

Addendum #1 1/31/24

We received the following questions regarding this RFQ:

Question #1: Are you requesting exterior and interior camera coverage?

Answer #1: Yes, we are requesting interior and exterior coverage.

Question #2: Are there more critical coverage areas if so can you provide the locations?

Answer #2: We are looking for general coverage with an emphasis on having the entrances covered. The conference room, shop area, electrical room and exterior views of all sides and a view of the flare. We are excluding the control room for general coverage.

Question #3: Is there a list of analytics you are requesting? Such as facial recognition, license plate recognition, etc.

Answer #3: No specific analytics are requested.

Question #4: Do you have requirements for the number of cameras?

Answer #4: No, we will rely on your design to address the requested coverage areas.

Question #5: Do you have a requirement for the number of views?

Answer #5: No, we will rely on your design/layout as to the number of views.

Question #6: How will you be evaluating the coverage areas and the quality of the views proposed?

Answer #6: We have a map of the premises that the county assembled showing what coverage we would like to include.

Question #7: Is there a minimum size server you require?

Answer #7: Whatever is suited to the proposed system should be sufficient.

Question #8: Do you require the camera system to be made in the USA?

Answer #8: No preference.

Question #9: Please confirm whether this solution is an on-premise solution with a server or is it a cloud-based solution?

Answer #9: On premise unless there is an advantage to a cloud-based solution.

Question #10: What brand is the current camera solution?

Answer #10: There is no current camera system.
